

Guidance for Members of a Professional Affiliate who wish to seek Registration with the RPC

Professional Affiliates (PAs) can offer a route to registration for its members through a formal agreement with an RPC Licensee. This will ensure that the PA complies with the RPC licensing requirements.

Members of a PA who wish to apply for professional registration may do so once formal agreement has been reached between their PA and an RPC Licensee.

Members should refer to the RPC website for further information on RPC registration.
